This booklet outlines the main rules and requirements for assessment in the High School Certificate. In addition to reading this booklet each student will be given a hard copy of the NSW Education Standards Authority 2022 Rules and procedures guide for the HSC. This booklet contains more detailed information about assessment procedures and must be read by all students entered for an HSC course. A copy of this booklet can also be found online: [2022 Rules and procedures guide | NSW Education Standards](#). Students can also obtain more detailed explanations of the rules and requirements of the HSC by referring to the NSW Education and Standards website, www.educationstandards.nsw.edu.au. This will provide links to:

- Stage 6 Syllabuses
- Assessment in Stage 6
- HSC exam advice and resources for students
- HSC: All My Own Work
- Vocational Education
- HSC Timetable (later in 2022)
- HSC Minimum standard

Important Information about the HSC from NESAs

School Assessment Tasks

At the end of the Higher School Certificate program, schools will provide the NSW Education Standards Authority (NESA) with a mark for each of the courses studied by each student. These marks will be formed from the performances in the school assessment tasks within each course. The marks will reflect the rank order of students within each course at Tenterfield High School. The assessment tasks will be designed to assess components of the syllabus with the required weightings. Guidance will be provided to students in the form of a list of outcomes to be assessed and general marking guidelines if appropriate. At each stage in the formal assessment program, tasks should be prepared thoroughly to reflect a student's best effort at the time. This is an important aspect of the assessment program since, in the event of an illness or misadventure at the time of the Higher School Certificate Examinations; the school assessment may represent 100% of the final result.

Eligibility for the Higher School Certificate Qualification

To be eligible for the Higher School Certificate students must complete a prescribed pattern of study that includes:

- 6 units from NSW Education Standards Authority Developed Courses
- 2 units of English
- 3 courses of 2 units or greater
- At least 4 different subjects
- At most, six units of courses in Science can count towards Higher School Certificate eligibility

Record of Achievement

NESA awards Records of Achievement to students in their secondary years for both Year 11 and Higher School Certificate Courses completed. The Higher School Certificate record of Achievement is awarded at the same time as the Higher School Certificate results and sets out the pattern of study for Years 11 & 12, along with a statement about satisfactory attendance and application.

Eligibility for an Australian Tertiary Admission Rank

To be eligible to receive an Australian Tertiary Admission Rank (ATAR) students must complete a pattern of study which includes:

- 8 units of Category A courses
- 2 units of English
- 3 courses of 2 units or more
- At least 4 different subjects

The internal school assessments and the external Higher School Certificate examination will carry an equal weighting in the final Higher School Certificate result. The School Assessment mark and the Higher School Certificate Exam mark will be treated as follows:

- The School Assessment mark will be moderated (adjusted) by the exam performance of the school group
- The rank order of students as submitted by the school is not changed
- The Moderated School Assessment mark and the Higher School Certificate Exam mark will be averaged
- The averaged mark will be used to align the student's result to a performance scale
- The average of the assessment mark and examination mark, after alignment to the performance scale, is then reported as the Higher School Certificate mark

Completing the Assessment Tasks

Students must complete assessment tasks worth more than half a course's total assessment marks (>50% weighting). If not, the student will not have satisfactorily completed the course. This means the course cannot be counted towards the 10 units required for the Higher School Certificate.

'N' Determinations

These determinations apply to students who have not satisfactorily completed the mandatory curriculum requirements for particular courses. Reasons for 'N' determinations relate to the available evidence that a student has been applying themselves with due diligence and sustained effort to set tasks and experiences provided by the school. This evidence can include non-completion of more than 50% (>50% weighting) of formal assessments for a course. An 'N' determination in a course can impact on a student's eligibility to receive an Higher School Certificate if the required 10 units of Higher School Certificate subjects are not completed. Appropriate warning letters are sent to students as the 'N' determination process is initiated and, if an 'N' is recorded with NESA, a student has access to a school review and an appeal through NESA. A sample warning letter is provided in this booklet.

Honesty in HSC Assessments

Proven dishonesty/malpractice may result in a zero mark for an assessment task. Honest and ethical practice is clearly outlined in the modules of work completed in the Higher School Certificate: 'All My Own Work' program. These modules include aspects such as plagiarism, copying another student's work, sharing work with other students, acknowledging sources appropriately, cheating and copyright issues.

Students found to have made any change to the responses or allocated mark will be considered to have engaged in malpractice and will receive a zero mark for the examination paper.

A breach of examination rules includes students who conceal notes on their person taken into an examination room or any electronic devices as specified by NESAs such as mobile phones and smart watches of any description. Any student who is suspected of a breach of examination rules or malpractice will be thoroughly investigated by the appropriate invigilator. Serious and deliberate acts of malpractice amount to corrupt conduct, and where appropriate, the school will report matters to NESAs for recording on the official Malpractice Register.

Disability Provisions

Disability Provisions are available for students with a range of medical and learning conditions. The provisions granted in the HSC are practical measures designed to help students make a fair attempt at their exam. Disability Provisions are applied for by the school via an online application to NESAs. The application must include recent evidence which may include medical reports, reading results, spelling results, writing samples and teacher comments. It is important to apply for these provisions if you have a medical or learning requirement. Please see Miss Phillips our Head Teacher Wellbeing for more information. The school will be responsible for determining and implementing disability provisions for all school-based assessment tasks.

Illness and Misadventure in the HSC

If a student believes that his/her performance in the HSC examination was diminished because of circumstances beyond their control, an Illness/Misadventure Appeal may be lodged. Note that misreading the HSC examination timetable is NOT a valid reason for a misadventure appeal. An appeal may be made for a variation to HSC results if the student was prevented from attending an examination, or performance was affected by illness or misadventure immediately before or during the examination. Appeal forms are available from the Presiding Officer and the Deputy Principal. It is students' responsibility to lodge an appeal. See the NESAs website for further details.

Tenterfield High School Assessment Policy

ALL ASSESSMENT TASKS MUST BE ATTEMPTED

Except in exceptional circumstances (e.g. long-term illness), all assessment tasks must be attempted. More than fifty per cent (>50%) of subject assessment tasks must be completed to be eligible for the Higher School Certificate. The only exception to the rule is when a student has notified the school of a long-term illness or extreme personal circumstances via the Extension / Illness/Misadventure form as outlined below. Late attempts may result in that task not being included in a student's total assessment for that subject, but it will be marked and returned.

Extension/Illness and Misadventure Form

These forms can be found at the Deputy Principals office and then must be returned to the Deputy Principal. They need to be used in the following circumstances:

1. If there is a genuine reason as to why an assessment task is not going to be completed or handed in at the scheduled time. Students need to state the reason for an extension and provide supporting evidence.
2. A student who is absent due to illness or other unforeseen circumstances on the day an assessment task is due or exam / practical is being held. In the case of a medical reason, a student should use a Medical Certificate as documentation. On the first day of return to school, students should submit the task or arrive ready to complete the exam / practical.
3. If a student feels well enough to do a task but believes that circumstances occurring immediately prior to the day or on the day of an assessment task may have diminished their performance, they should inform the Deputy Principal and complete the form with any relevant documentation after they have sat the task.

The Deputy Principal in conjunction with the relevant Head Teacher will make the decision as to whether the student is granted an extension, given an alternative task or given an estimate for the task. As outlined below students have the right to appeal this decision.

If a student misses an assessment task without a genuine reason, supported by written evidence, they will be given a Zero mark.

Submission of Tasks

Unless otherwise stated by the teacher, tasks completed at home will be due at the beginning of the first period of the subject on the day determined. Late work will receive a zero mark unless there is a valid reason. Students will need to sign they have submitted their task.

If a student is away from school on the day of a hand-in task, it is their responsibility to email or arrange someone to deliver their work to the school. If the absence is due to a medical condition that prevented them from completing the task, they must fill in the Extension / Illness and Misadventure Form as stated above.

Appeals

Students have the right to appeal if they feel that the process used with assessments does not comply with the set rules (see Appeal form). Appeal forms must be lodged within one calendar week of the return of the task. Students should note that an appeal cannot be considered if it is based on the actual marks obtained. A student can only appeal on the basis of process. Appeals should be lodged with the Deputy Principal. A decision will be made by a panel, which may consist of Principal, Deputy Principal and relevant Head Teacher.

Disability Provisions

If you require disability provisions for a school based assessment task (see page iii), please see our Head Teacher Wellbeing Miss Phillips to discuss.

Vocational Education and Training Assessment Policy

Vocational Education and Training (VET) Courses are dual accredited courses. Students have the opportunity to be awarded with: Units towards Preliminary and Higher School Certificate qualification competencies which can lead to a Statement of Attainment, Certificate I, II or III which is awarded under the Australian Qualifications Framework (AQF).

Students will be assessed in both areas during each VET Course.

VET courses will be listed on the Higher School Certificate Record of Achievement and the AQF qualification will be assessed by NESAs separately.

The rules and structure of Higher School Certificate VET courses vary from the qualification packaging rules. In some cases additional units of competency are required to meet NESAs requirements.

1. Australian Qualifications Framework Assessment

All Industry Curriculum Framework Courses are assessed under National Competency Standards that have been determined by industry for inclusion in the framework training packages.

Assessment does not compare you against other students. It compares each individual against the 'competence' requirements of the training package. Competency based assessment means that students work to develop the competencies, skills and knowledge described in each Unit of Competency to be assessed as competent. A student must demonstrate to a qualified assessor (teacher) that they can effectively carry out various tasks and combinations of tasks listed, to the standard required in the appropriate industry. There is no mark awarded in competency based assessment. Students are assessed as either competent or not yet competent. Demonstrating competence means that you can perform the task or show an understanding to the level required by the industry standards. The units of competency achieved will be recognised on a vocational qualification.

At the commencement of the course, you will be given an Assessment Schedule indicating the timing, competencies and methods of assessment. You will have the opportunity to develop skills over time and your assessor (teacher) will usually organise a number of chances for students to demonstrate a competency. You may seek further opportunities to demonstrate competencies during the course.

If students are deemed not competent at that time, they will be given at least one further opportunity at an agreed time to be reassessed. There are a number of competencies that may only be offered once during the course due to their Work Health and Safety requirement, cost, time frame, supervision required or resource availability. Specific information about these competencies will be issued to students when the task is issued.

Some assessment will be ongoing and evidence of competence will be gathered on a continuous basis. Other evidence will be collected through specific assessment tasks and events such as projects and assignments, written and practical tests, portfolios, role plays and simulations.

2. Higher School Certificate

As with all Higher School Certificate courses, NESA procedures apply to all VET Courses. In most vocational courses, you can choose to undertake an optional Higher School Certificate examination in order to count the course towards your Australian Tertiary Admission Rank (ATAR). For students who have undertaken the Higher School Certificate examination, a scaled examination mark will be recorded on the Higher School Certificate. No school based assessment mark will be recorded. No Assessment mark for VET Courses is required by NESA. An estimated examination mark for students entered for the Higher School Certificate written examination must be submitted. This mark will be used only in the case of an illness/misadventure appeal.

3. Work Placement

Work placement is a mandatory Higher School Certificate requirement for all VET courses. This is a requirement of NESA and if not completed, you may be given an 'N' Award. If you have not completed the work place requirement you will not have the course recognised at NESA for the Units of Credit towards the Higher School Certificate. The minimum hours of work placement may vary, but usually you are required to undertake 35 hours of work placement for every 120 hours of the VET course. The school will provide students with the opportunity to complete two structured work placements in venues that will be determined in consultation with the student. Students must attend the work placement preparation meetings held prior to work placement. Students who fail to attend work placement without a valid reason or do not complete the work placement due to inappropriate or unacceptable behaviour, may receive an 'N' determination and/or disciplinary action according to the school Student Code of Conduct.

Under some circumstances, paid work in an industry related casual or part time job can contribute to your work placement requirements. See your teacher to find out if your current employment is suitable.

4. Recognition of Prior Learning

Recognition for Prior Learning (RPL) is the acknowledgement of a person's skills and knowledge acquired through previous training, work or life experience, which may be used to grant status or credit in a subject or module. Students may apply for Recognition of Prior Learning. You will need to produce evidence to enable your teacher to assess your skills to ensure they are at industry standard. Recognition of Prior Learning will only be granted for competencies where you are able to demonstrate achievement of all of the learning outcomes and performance criteria for that unit of competency. You would then be exempted from undertaking the training and assessment for that unit of competency. Students are encouraged to discuss this with their class teacher.

5. Appeals Procedure

Normal school assessment appeals procedures will apply for VET courses.

Tenterfield

High School

Extension, Illness or Misadventure Form

This form should be filled in by any student who requires an extension for an assessment task or who has suffered an illness or misadventure just prior or during a task.

This needs to be handed into the Deputy Principal.

In dealing with Extension, illness/misadventure there can be no consideration for:

- Alleged deficiencies in teaching
- Poor time management
- Technology issues
- Misreading of the timetable or examination instructions
- Conditions for which you have been granted disability provisions, unless you experience further difficulties
- Matters that could have been avoided by the student.

Please see the Deputy Principal for further information.

Note: failure to fully complete this form or provide necessary detail and supporting documentation will result in an application being declined.

Student's name: _____

Assessment task affected: _____

Date of assessment task: _____

Attach a copy of the assessment notification for an in-class assessment task

Describe how the illness or misadventure you have suffered has affected your performance in the assessment task. You must attach independent evidence of the illness or misadventure (Medical Certificate, School Counsellor report etc. (If the space below is not adequate please use the reverse)

Was the task completed? Yes No If 'Yes' when did you sit it? _____

Did you notify a teacher that you were submitting an Illness /Misadventure Form immediately prior to, or during the task? Yes No If 'Yes' then who? _____

Student's signature: _____ Date: _____

Parent's signature: _____ Date: _____

For Office Use Only

Date submitted: _____ Received by: _____

Assessment Committee Decision: _____

Tenterfield

High School

Application for Assessment Mark/Grade Appeal Form

Students have the right to appeal an assessment mark or grade. Appeals can only be made on the grounds that due process was not followed by the school. An appeal cannot be submitted on the basis of:

- The marks or grades given, unless due process was not followed;
- Difficulties in preparation or loss of preparation time;
- Alleged deficiencies in tuition;
- Long term illness;
- The same grounds for which disability provisions were received;
- Misreading the timetable; or
- Other commitments such as sporting, cultural or work commitments.

Appeal forms must be lodged with the Deputy Principal within one calendar week of the return of the task. You may seek advice from the Deputy Principal before you complete this form.

Student name: _____ **Year:** _____ **Date:** _____

Subject: _____

Task Description: _____

Please outline the reasons for your appeal:

Independent supporting documentation (please list documents attached to appeal):

Student signature: _____ Date: _____

Office Use Only - Grade Appeal Application

Student Name: _____

Deputy Principal decision & comment:

Approved/Declined

Extension Granted. The new due date is _____. Failure to submit the task by the new due date will lead to a "N-Warning" letter being sent home and a Zero mark being awarded.

Alternative task will be set. A new notification form will be issued.

An estimate will be given based on other evidence.

The reason does not warrant a renegotiation.

Teacher: _____ Head Teacher: _____ Principal: _____

Date: _____ Date: _____ Date: _____

Student: _____ Parent Carer: _____ Date: _____

SAMPLE WARNING LETTER

Non-Completion of a Higher School Certificate Course

Dear [Parent/Carer]

Re: Official Warning – Non-completion of a Higher School Certificate Course

I am writing to advise that _____ (student name) is in danger of not meeting the Course Completion Criteria for the Higher School Certificate course _____ (course name).

NESA requires schools to issue students with official warnings in order to give them the opportunity to redeem themselves. Please regard this letter as the ____ (e.g. 1st, 2nd) official warning we have issued concerning _____ (course name).

A minimum of two course-specific warnings must be issued prior to a final 'N' non-completion of course determination being made for a course.

Course Completion Criteria

The satisfactory completion of a course requires Principals to have sufficient evidence that the student has:

- a) followed the course developed or endorsed by the Board; and
- b) applied themselves with diligence and sustained effort to the set tasks and
- c) experiences provided in the course by the school; and
- d) achieved some or all of the course outcomes.

Where it is determined that a student has not met the Course Completion Criteria, they place themselves at risk of receiving an 'N' determination. An 'N' determination will mean that the course will not be listed on the student's Record of Achievement and may affect the student's eligibility for the Higher School Certificate. In Year 12, students must make a genuine attempt at Assessment Tasks that contribute in excess of 50% weighting of available marks. Completion of tasks worth exactly 50% is not sufficient; tasks worth in excess of 50% must be completed.

To date, _____ (student name) has not satisfactorily met ____% of the Course Completion Criteria.

The table overleaf lists those tasks, requirements or outcomes not yet completed or achieved, and/or for which a genuine attempt has not been made. In order for _____ (student name) to satisfy Course Completion Criteria, _____ (student name) the tasks, requirements or outcomes listed overleaf need to be satisfactorily completed and/or achieved.

Please discuss this matter with _____ (student name) and contact the school if further information or clarification is needed.

Yours sincerely,

Ms Stephanie Scott
Principal

To satisfy the Course Completion Criteria, the following tasks, requirements or outcomes need to be satisfactorily completed by the Half-yearly examination period.

Please detach this section and return to the School

Requirements for the satisfactory completion of a Higher School Certificate Course

- I have received the letter dated _____ indicating that _____ (student name) is in danger of not having satisfactorily completed course requirements for _____ (course name).
- I am aware that this course may not appear on her Higher School Certificate Record of Achievement.
- I am also aware that the 'N' determination may make her ineligible for the award of the Higher School Certificate.

Parent/Carer's signature: _____

Date: _____

Student's signature: _____

COMPONENTS (SYLLABUS)	WEIGHTING	TASK 1	TASK 2	TASK 3	TASK 4
		TERM 4 WEEK 8	TERM 1 WEEK 8	TERM 2 WEEK 8	TERM 3 WEEK 5/6
		TYPE OF TASK	TYPE OF TASK	TYPE OF TASK	TYPE OF TASK
		Research Task	Experimental Design/Practical Investigation	Research Task	Trial HSC Examination
Outcomes to be assessed		H3.1, H3.2, H3.3	H1.1, H2.1, H2.2, H4.1	H3.4, H4.1, H5.1	H1.1, H2.1, H2.2, H3.1, H3.2, H3.3, H3.4, H4.1, H5.1
Module 1 – Plant and Animal Production	35%		25		10
Module 2 – Farm Product Study (Beef)	35%	25			10
Module 3 – Elective	30%			20	10
Total	100%	25%	25%	20%	30%

OUTCOMES

A student:

- H1.1. explains the influence of the physical, biological, social, historical and economic factors on sustainable agriculture.
- H2.1. describes the inputs, processes and interaction of plant production systems.
- H2.2. describes the inputs, processes and interaction of animal production systems.
- H3.1. assesses the general business principles and decision-making processes involved in sustainable farm management and marketing of farm products.
- H3.2. critically assesses the marketing of a plant OR animal product.
- H3.3. critically examines the technologies and technological innovations employed in the production and marketing of agricultural products.
- H3.4. evaluates the management of the processes in agricultural systems.
- H4.1. justifies and applies appropriate experimental techniques, technologies, research by methods and data presentation and analysis in relation to agricultural problems and situations.
- H5.1. evaluates the impact of innovation, ethics and current issues on Australian agricultural systems.

Module 8 – Non-Infectious Disease & Disorders	15%			5	10
Total	100%	15%	40%	15%	30%

OUTCOMES

A student:

- BIO12-1. develops and evaluates questions and hypotheses for scientific investigation
- BIO12-2. designs and evaluates investigations in order to obtain primary and secondary data and information
- BIO12-3. conducts investigations to collect valid and reliable primary and secondary data and information
- BIO12-4. selects and processes appropriate qualitative and quantitative data and information using a range of appropriate media
- BIO12-5. analyses and evaluates primary and secondary data and information
- BIO12-6. solves scientific problems using primary and secondary data, critical thinking skills and scientific processes
- BIO12-7. communicates scientific understanding using suitable language and terminology for a specific audience or purpose
- BIO12-8. describes single cells as the basis for all life by analysing and explaining cells' ultrastructure and biochemical processes
- BIO12-9. explains the structure and function of multicellular organisms and describes how the coordinated activities of cells, tissues and organs contribute to macroscopic processes in organisms
- BIO12-10. describes biological diversity by explaining the relationships between a range of organisms in terms of specialisation for selected habitats and evolution of species
- BIO12-11. analyses ecosystem dynamics and the interrelationships of organisms within the ecosystem
- BIO12-12. explains the structures of DNA and analyses the mechanisms of inheritance and how processes of reproduction ensure continuity of species
- BIO12-13. explains natural genetic change and the use of genetic technologies to induce genetic change
- BIO12-14. analyses infectious disease in terms of cause, transmission, management and the organism's response, including the human immune system
- BIO12-15. explains non-infectious disease and disorders and a range of technologies and methods used to assist, control, prevent and treat non-infectious disease

COMPONENT WEIGHTING	Knowledge and understanding of course content	40%	10	10	10	10
	Skills in critical thinking, research methodology and analysing	30%	10	5	5	10
	Skills in communicating	30%		10	10	10
Total		100%	20%	25%	25%	30%

OUTCOMES

A student:

- H1.1. analyses the effect of resource management on the wellbeing of individuals, groups, families and communities
- H2.1. analyses different approaches to parenting and caring relationships
- H2.2. evaluates strategies to contribute to positive relationships and the wellbeing of individuals, groups, families and communities
- H2.3. critically examines how individual rights and responsibilities in various environments contribute to wellbeing
- H3.1. analyses the sociocultural factors that lead to special needs of individuals in groups
- H3.2. evaluates networks available to individuals, groups and families and communities
- H3.3. critically analyses the role policy and community structures in supporting diversity
- H3.4. critically evaluates the impact of social, legal and technological change on individuals, groups, families and communities
- H4.1. justifies and applies appropriate research methodologies
- H4.2. communicates ideas, debates issues and justifies opinions
- H5.1. proposes management strategies to enable individuals and groups to satisfy their specific needs and to ensure equitable access to resources
- H6.1. analyses how the environment of women and men influences the way they function within society
- H6.2. formulates strategic plans that preserve the rights, promote responsibilities and establish roles leading to the creation of positive social environments
- H7.1. appreciates the differences among individuals, groups and families within communities and values their contributions to society
- H7.2. develops a sense of responsibility for the wellbeing of themselves and others
- H7.3. appreciates the value of resource management in response to change
- H7.4. values the place of management in coping with a variety of role expectations

Construction – Certificate II in Construction Pathways

			TWRTO 90162	HSC HRS	NESA	2022-2023						
						Year 11			HSC - Year 12			
Unit Code	Unit Title	Prerequisite/s				TERM 1	TERM 2	TERM 3	TERM 4	TERM 1	TERM 2	TERM 3
CPCCWHS1001A	Prepare to work safely in the construction industry	Course Preq	C	10	M							
CPCCCM1012	Work effectively and sustainably in the construction Industry	Nil	C	25	M							
CPCCCM1013	Plan and organise work	Nil	C	10	M							
CPCCCM1014A	Conduct workplace communication	Nil	C	10	M							
CPCCCM1015A	Carry out measurements and calculations	Nil	C	20	M							
CPCCCM2001	Read and interpret plans and specifications	Nil	C	20	M							
CPCCOHS2001A	Apply OH&S requirements policies and procedures in the construction industry	CPCCOHS1001AA	C	15	M							
CPCCBL2001A	Handle & prepare bricklaying & block laying materials	CPCCOHS2001A	E	20	E							
CPCCM2005B	Use construction tools and Equipment	Nil	C	20	M							
CPCCOHS2001A	Use carpentry tools and equipment	CPCCOHS2001A	C	10	M							
CPCCJN2001A	Assemble components	Nil	E	15	E							
CPCCJN2002B	Prepare for off-site manufacturing process	Nil	E	10	E							
CPCCCM2006	Apply basic levelling procedures	CPCCOHS2001A	E	15	E							
CPCCWF2002A	Use wall and floor tiling equipment	CPCCOHS2001A	E	15	E							
CPCCWF2001A	Handle wall and floor tiling materials	CPCCOHS2001A	E	25	E							
CPCCCA2011A	Handle carpentry materials	CPCCOHS2001A	E	20	E							
CPCCBL2002A	Use bricklaying & block laying tools & equipment	CPCCOHS2001A	E	10	E							
CPCCCO2013A	Carry out concreting to simple form	CPCCOHS2001A	E	20	E							
CPCCCA2003	Erect & dismantle formwork for foots & slabs on ground	CPCCOHS2001A	E	25	E							
Total Hours				315								
Work placement				70				35			35

	Skills in responding to texts and communication of ideas appropriate to audience, purpose and context across all modes	50%	15	10	10	15
Total		100%	25%	25%	20%	30%

OUTCOMES

A student:

- EA12-1. independently responds to, composes and evaluates a range of complex texts for understanding, interpretation, critical analysis, imaginative expression and pleasure
- EA12-2. uses, evaluates and justifies processes, skills and knowledge required to effectively respond to and compose texts in different modes, media and technologies
- EA12-3. critically analyses and uses language forms, features and structures of texts justifying appropriateness for specific purposes, audiences and contexts and evaluates their effects on meaning
- EA12-4. strategically adapts and applies knowledge, skills and understanding of language concepts and literary devices in new and different contexts
- EA12-5. thinks imaginatively, creatively, interpretively, critically and discerningly to respond to, evaluate and compose texts that synthesis complex information, ideas and arguments
- EA12-6. investigates and evaluates the relationship between texts
- EA12-7. evaluates the diverse way texts can represent personal and public worlds and recognizes how they are valued
- EA12-8. explains and evaluates nuanced cultural assumptions and values in texts and their effects on meaning
- EA12-9. reflects on, evaluates and monitors own learning and refines individual and collaborative processes as an independent learner

	Uses language appropriately, accurately and effectively	20%	5	5		10
Total		100%	30%	20%	20%	30%

OUTCOMES

A student:

- ES12-1. comprehends and responds analytically and imaginatively to a range of texts, including short and extended texts, literary texts and texts from academic, community, workplace and social contexts for a variety of purposes
- ES12-2. identifies, uses and assesses strategies to comprehend increasingly complex and sustained written, spoken, visual, multimodal and digital texts that have been composed for different purposes and contexts
- ES12-3. accesses, comprehends and uses information to communicate in a variety of ways
- ES12-4. composes proficient texts in different forms
- ES12-5. develops knowledge, understanding and appreciation of how language is used, identifying and explaining specific language forms and features in texts that convey meaning to different audiences
- ES12-6. uses appropriate strategies to compose texts for different modes, media, audiences, contexts and purposes
- ES12-7. represents own ideas in critical, interpretive and imaginative texts
- ES12-8. understands and explains the relationships between texts
- ES12-9. identifies and explores ideas, values, points of view and attitudes expressed in texts, and explains ways in which texts may influence, engage and persuade different audiences
- ES12-10. monitors and reflects on own learning and adjusts individual and collaborative processes to develop as a more independent learner

	Major Project	60%	20	10	30	
	Industry related Manufacturing Technology	25%				25
	Total	100%	20%	20%	30%	30%

A student:

- H1.1. investigates industry through the study of businesses in one focus area
- H1.2. identifies appropriate equipment, production and manufacturing techniques and describes the impact of new and developing technologies in industry
- H1.3. identifies important historical developments in the focus area industry
- H2.1. demonstrates proficiency in the use of safe work practices and workshop equipment maintenance techniques
- H3.1. demonstrates skills in sketching, producing and interpreting drawings
- H3.2. selects and applies appropriate research and problem-solving skills
- H3.3. applies and justifies design principles through the production of a Major Project
- H4.1. demonstrates competency in a range of practical skills appropriate to the Major Project
- H4.2. explores the need to outsource appropriate expertise where necessary to complement personal practical skills
- H4.3. critically applies knowledge and skills related to properties and characteristics of materials/components
- H5.1. selects and uses communication and information processing skills
- H5.2. examines and applies appropriate documentation techniques to project management
- H6.1. evaluates the characteristics of quality manufactured products
- H6.2. applies the principles of quality and quality control
- H7.1. explains the impact of the focus area industry on the social and physical environment
- H7.2. analyses the impact of existing, new and emerging technologies of the focus industry on society and the environment

Understanding, fluency and communication	50%	10	10	15	15
Problem-solving, reasoning and justification	50%	10	10	15	15
Total	100%	20%	20%	30%	30%

OUTCOMES

A student:

- MA12-1. uses detailed algebraic and graphical techniques to critically construct, model and evaluate arguments in a range of familiar and unfamiliar contexts
- MA12-2. models and solves problems and makes informed decisions about financial situations using mathematical reasoning and techniques
- MA12-3. applies calculus techniques to model and solve problems
- MA12-4. applies the concepts and techniques of arithmetic and geometric sequences and series in the solution of problems
- MA12-5. applies the concepts and techniques of periodic functions in the solution of problems involving trigonometric graphs
- MA12-6. applies appropriate differentiation methods to solve problems
- MA12-7. applies the concepts and techniques of indefinite and definite integrals in the solution of problems
- MA12-8. solves problems using appropriate statistical processes
- MA12-9. chooses and uses appropriate technology effectively in a range of contexts, models and applies critical thinking to recognise appropriate times for such use
- MA12-10. constructs arguments to prove and justify results and provides reasoning to support conclusions which are appropriate to the context

Mathematics – Numeracy Stage 6

COMPONENTS (SYLLABUS)	WEIGHTING	TASK 1	TASK 2	TASK 3	TASK 4

Skills	50%	12.5	12.5	12.5	12.5
Total	100%	25%	25%	25%	25%

OUTCOMES

A student:

- N6-1.1 recognises and applies functionality numeracy concepts in practical situations, including personal and community, workplace and employment, and education and training
- N6-1.2 applies numerical reasoning and mathematical thinking to clarify, efficiently solve and communicate solutions to problems
- N6-1.3 determines whether an estimate or an answer is reasonable in the context of a problem, evaluates results and communicates conclusions
- N6-2.1 chooses and applies appropriate operations with whole numbers, familiar fractions and decimals, percentages, rates and ratios to analyse and solve everyday problems
- N6-2.2 chooses and applies efficient strategies to analyse and solve everyday problems involving metric relationships, distance and length, area, volume, time, mass, capacity and temperature
- N6-2.3 chooses and applies efficient strategies to analyse and solve everyday problems involving data, graphs, tables, statistics and profitability
- N6-2.4 chooses and applies efficient strategies to analyse and solve everyday problems involving money and finance
- N6-2.5 chooses and applies efficient strategies to analyse and solve everyday problems involving location, space and design
- N6-2.6 chooses and applies appropriate numeracy operations and techniques to analyse and resolve everyday situations
- N6-3.1 chooses and uses appropriate technology to access, organize and interpret information in a range of practical personal and community, workplace and employment, and education and training contexts
- N6.3.2 chooses and uses appropriate technology to analyse and solve problems, represent information, and communicate solutions in a range of practical contexts

Problem solving, reasoning and justification	50%	10	15	10	15
Total	100%	20%	30%	20%	30%

OUTCOMES

A student:

- MS2-12-1. uses detailed algebraic and graphical techniques to critically evaluate and construct arguments in a range of familiar and unfamiliar contexts
- MS2-12-2. analyses representations of data in order to make inferences, predictions and draw conclusions
- MS2-12-3. interprets the results of measurements and calculations and makes judgements about the reasonableness, including the degree of accuracy and the conversion of units where appropriate
- MS2-12-4. analyses two-dimensional and three-dimensional models to solve practical problems
- MS2-12-5. makes informed decisions about financial situations, including annuities and loan repayments
- MS2-12-6. solves problems by representing the relationships between changing quantities in algebraic and graphical forms
- MS2-12-7. solves problems by requiring statistical processes, including the use of the normal distribution and the correlation of bivariate data
- MS2-12-8. solves problems using networks to model decision-making in practical problems
- MS2-12-9. chooses and uses appropriate technology effectively in a range of contexts, and applies critical thinking to recognise appropriate times and methods for such use
- MS2-12-10. uses mathematical argument and reasoning to evaluate conclusions, communicating a position clearly to others and justifying a response

OUTCOMES

A student:

- MH12-1. accounts for the nature of continuity and change in the modern world
- MH12-2. proposes arguments about the varying causes and effects of events and developments
- MH12-3. evaluates the role of historical features, individuals, groups and ideas in shaping the past
- MH12-4. analyses the different perspectives of individuals and groups in their historical context
- MH12-5. assesses the significance of historical features, people, ideas, movements, events and developments of the modern world
- MH12-6. analyses and interprets different types of sources for evidence to support an historical account or argument
- MH12-7. discusses and evaluates differing interpretations and representations of the past
- MH12-8. plans and conducts historical investigations and presents reasoned conclusions, using relevant evidence from a range of sources
- MH12-9. communicates historical understanding, using historical knowledge, concepts and terms, in appropriate and well-structured forms

OUTCOMES

A student:

- H1. performs stylistically, music that is characteristic of topics studied, both as a soloist and as a member of an ensemble
- H2. reads, interprets, discusses and analyses simple musical scores that are characteristic of the topics studied
- H3. improvises and composes music using the range of concepts for familiar sound sources reflecting the cultural and historical contexts studied
- H4. articulates an aural understanding of musical concepts and their relationships in a wide variety of musical styles
- H5. critically evaluates and discusses performances and compositions
- H6. critically evaluates and discusses the use of the concepts of music in works representative of the topics studied and through wide listening
- H7. understands the capabilities of performing media, incorporates technologies into composition and performance as appropriate to the topics studied
- H8. identifies, recognises, experiments with, and discusses the use and effects of technology in music
- H9. performs as a means of self-expression and communication

Total		100%	20%	20%	30%	30%

OUTCOMES A student:

- H1. describes the nature and justifies the choice of Australia's health priorities.
- H2. analyses and explains the health status of Australians in terms of current trends and groups most at risk.
- H3. analyses the determinants of health and health inequities.
- H4. argues the case for health promotion based on the Ottawa Charter.
- H5. explains the different roles and responsibilities of individuals, communities and governments in addressing Australia's health priorities.
- H6. demonstrates a range of personal health skills that enables them to promote and maintain health (Option 1).
- H7. explains the relationship between physiology and movement potential.
- H8. explains how a variety of training approaches and other interventions enhance performance and safety in physical activity.
- H9. explains how movement skill is acquired and appraised.
- H10. designs and implements training plans to improve performance.
- H11. designs psychological strategies and nutritional plans in response to individual performance needs.
- H13. selects and applies strategies for the management of injuries and the promotion of safety in sport and physical activity (Option 3).
- H14. argues the benefits of health-promoting actions and choices that promote social justice.
- H15. critically analyses key issues affecting the health of Australians and proposes ways of working towards better health for all.
- H16. devises methods of gathering, interpreting and communicating information about health and physical activity concepts.

Photography, Video & Digital Imaging

Making	70%	20	30		20
Critical And Historical	30%	10		20	
Total	100%	30%	30%	20%	20%

OUTCOMES

A student:

- M1. generates a characteristic style that is increasingly self-reflective in their photographic and/or video and/or digital practice.
- M2. explores concepts of artist/photographer, still and moving works, interpretations of the world and audience response, in their making of still and/or moving works.
- M3. investigates different points of view in the making of photographs and/or videos and/or digital images.
- M4. generates images and ideas as representations/simulations in the making of photographs and/or videos and/or digital images.
- M5. develops different techniques suited to artistic intentions in the making of photographs and/or videos and/or digital images.
- M6. takes into account issues of Work Health and Safety in the making of photographs and/or videos and/or digital works.
- CH1. generates in their critical and historical practice ways to interpret and explain photography and/or video and/or digital imaging.
- CH2. investigates the roles and relationships among the concepts of artist, work, world and audience in critical and historical investigations.
- CH3. distinguishes between different points of view and offers interpretive accounts in critical and historical studies.
- CH4. explores ways in which histories, narratives and other accounts can be built to explain practices and interests in the fields of photography and/or video and/or digital imaging.
- CH5. recognises how photography and/or video and/or digital imaging are used in various fields of cultural production.

Total		100%	20%	50%	30%

OUTCOMES

A student:

- 1.1. applies the rules and conventions that relate to participation in a range of physical activities
- 1.2. explains the relationship between physical activity, fitness and healthy lifestyle
- 1.3. demonstrates ways to enhance safety in physical activity
- 1.4. investigates and interprets the patterns of participation in sport and physical activity in Australia
- 2.1. explains the principles of skill development and training
- 2.2. analyses the fitness requirements of specific activities
- 2.3. selects and participates in physical activities that meet individual needs, interests and abilities
- 2.4. describes how societal influences impact on the nature of sport in Australia
- 3.1. selects appropriate strategies and tactics for success in a range of movement contexts
- 3.2. designs programs that respond to performance needs
- 3.3. measures and evaluates physical performance capacity
- 3.5. assesses and responds appropriately to emergency care situations
- 3.6. analyses the impact of professionalism in sport
- 4.1. plans strategies to achieve performance goal
- 4.2. demonstrates leadership skills and a capacity to work cooperatively in movement context
- 4.3. demonstrates competence and confidence in movement contexts

Visual Arts

		Development of the Body of Work Submission of works in progress, VAPD with annotated research and critical evaluation of material & conceptual intention	Essay Extended written research response. Account for the critical and historical interpretation of a selected artist's practice	Development of the Body of Work Submission of artworks under development, VAPD including a written account of artmaking practice through the artwork/audience relationship	Trial HSC Examination Art Criticism and Art History Written Examination Resolving the Body of Work: artworks undergoing refinement, VAPD including curation of works for HSC
Outcomes to be assessed		H1, H2, H3, H4, H9	H8, H9, H10	H1, H2, H3, H4, H6, H8	H2, H4, H5, H6, H7, H8, H9, H10
Artmaking	50%	15		25	10
Critical and Historical Studies	50%	15	15	10	10
Total	100%	30%	15%	35%	20%

OUTCOMES

A student:

- H1. initiates and organises artmaking practice that is sustained, reflective and adapted to suit particular conditions.
- H2. applies their understanding of the relationships among the artist, artwork, world and audience through the making of a body of work.
- H3. demonstrates an understanding of the frames when working independently in the making of art.
- H4. selects and develops subject matter and forms in particular ways as representations in artmaking.
- H5. demonstrates conceptual strength in the production of a body of work that exhibits coherence and may be interpreted in a range of ways.
- H6. demonstrates technical accomplishment, refinement and sensitivity appropriate to the artistic intentions within a body of work.
- H7. applies their understanding of practice in art criticism and art history.
- H8. applies their understanding of the relationships among the artist, artwork, world and audience.
- H9. demonstrates an understanding of how the frames provide for different orientations to critical and historical investigations of art.
- H10. constructs a body of significant art histories, critical narratives and other documentary accounts of representation in the visual arts. Industrial Technology – Metals
